DIY Cabinet Hinge Light

PRE

12v Cabinet Hinge Light

Product Codes	RCH-CUB-DH2
	RCH-CUB-DH30
Power (watts)	RCH-CUB-DH2 = 0.2w
	RCH-CUB-DH30 = 0.2w
Operating voltage	12v DC
Lamp cap	Rechargeable
Expected Life (hours)	30000
Light output (lumens)	RCH-CUB-DH2 = 16 lm
	RCH-CUB-DH30 = 16 lm
Colour temperature	6000k Cool White
Colour rendering index	>70
Beam angle (degrees)	120°
Dimming range	Non-dimmable
Dimensions (l x b x h) wt.	68 x 42 x 25mm (20g)
	68 x 42 x 25mm (20g)

This novel little 12v cupboard light fastens directly onto most common cupboard door hinges and triggers once the door is opened. It comes with a free 12v battery but can easily be connected to a 12v DC power supply.

The RCH-CUB-DH2 uses 3 SMD 2835 LED chips that are angled to the back of the cupboard to give an even light spread throughout their 120° beam angle, while avoiding glare in your eyes.

The RCH-CUB-DH2 is a 2 unit pack that is ideal for one to two cupboard shelves. The RCH-CUB-DH30 is a contractors economy pack of 20 units all with their own battery included.

The life expectancy of these lights are 30000 hours and are NRCS & RoHS compliant.

These make great replacements for other cupboard lights like strip and batten lights, at a fraction of the cost.

They require NO wiring and are completely self contained but can be connected to a grouped 12 DC power supply very easily if preferred.

These lights can accommodate a replaceable rechargeable battery.

Order now to avoid disappointment. Stock arriving Mid April.
